Directors Message

DDS academy aims at educating science students, who we believe will contribute to make a difference to not only their personal lives but also make a huge contribution to the society. Our academy offers world class education to science students with an approach to empower our students, through holistic and innovative education, which equips them with skills to broaden their thinking by sharpening their analytical and problem solving abilities.

Quality never comes by chance; it's the fruit of dedicated efforts, intelligent direction and skilful execution. In this era of tough competition in all fields of life, we are committed to prepare the students to excel and breeze out in such competitive exams with flying colours with the greatest of ease.

DDS academy is proud to have the best teaching faculty possessing decades of teaching and training experience and the results that our Academy has generated on an year on year basis is the living testimony of the teaching expertise that our faculties possess.

We at DDS academy are committed to provide the best coaching and training to the students aspiring to be future Doctors and Engineers. Our teaching methodology involving most comprehensive rigorous and comprehensive study plan ensures stupendous success to all those students that associate with us for their NEET and JEE preparations.

VISION

To offer world class education to science students, by empowering them with a holistic and innovative approach to conceptual education with a view to broaden their thinking horizons.

MISSION

DDS Academy endeavours to promote competitive spirit among students and to encourage young talents to show their mettle in competitive exams & emerge as winners.

DDS ACADEMY

TEACHING IS AN ART AND THIS NEEDS YEARS OF TEACHING EXPERTISE COUPLED WITH DETERMINATION

About us

DDS Academy was formed with a vision to provide best educational solutions to science aspirants by incorporating a unique teaching methodology with a team of highly experienced faculties possessing more than three decades of teaching and training expertise.

The course contents have been meticulously tailor made by our Visionary Directors keeping in mind the ever changing needs and pattern of the competitive exams and also in a most comprehensible manner so that learning is fun coupled with tricks and techniques to crack such exams. Thus our unique course content and training not only assures excellent grades in the board examination but also promises exemplary results in entrance exams.

We understand all the academic difficulties and the hurdles that an aspiring student faces, hence the guidance and coaching that we provide at DDS academy makes this preparation a cake walk for the aspirants.

Our exceptional teaching methodology coupled with holistic and innovative education, equips our students with skills to broaden their thinking by sharpening their analytical and problem solving abilities.

TEAM DDS is committed to serve.....with a difference that will yield results.

Academics & Our Teaching Pedagogy

DDS System

Change is the only constant thing in this universe....

We at DDS strive to give the latest, researched and the most advanced study material. Constant updating our course content ensures that our students are abreast with all the changes in academic pattern and requirement, thus strengthening their preparation as is required by the changing need.

Processes

Board and competitive examinations demand a very extensive study. At DDS Academy, teaching and preparation for the examinations are processed at three different levels viz level 1- board and state entrance examination, level 2 - JEE (Main) and AIPMT and Level 3 - JEE (Advanced) and AIIMS examinations.

Our faculty and staff

Seasoned and Tenured Faculties at DDS Academy are the roots for our student's success rate. Our faculty provide varied teaching methodologies with commitment which our results testify every year.

As the courses and curriculum for the Board examination and competitive examinations are different, DDS Academy has appointed separate group of faculties, who will look after the needs of students from the perspective of these separate examinations.

Board Examination and entrance examinations are the mandatory criteria to get an admission to Engineering or Medical College.

Facilities

1. Board examination

To prepare the students perfectly for Board examination, the faculties at DDS Academy are well-known for their teaching skills. We have the Masters of teaching arena who meticulously execute the teaching system designed by the Directors of DDS Academy and thoroughly induce the skills in students.

2. Entrance examinations

A dedicated team of experts in the teaching Arena under the supreme guidance of DDS Academy's Directors Mr. Satish Dande, Mr. Avinash Deshpande, Mr. Sunil Shete, ensure every students gets nothing but the best in terms of academic preparations.

DDS ACADEMY

3. Study Materials

Evaluation sheets

For the learning evaluation of students, the DDS Academy has designed a unique pattern of three levels. As a student clears the basic level and goes to the upper level, he gets tough and difficult evaluation sheet as per the level.

Level 1 - At this level, evaluation sheets are designed for the students who prepare for the Board and State entrance examinations.

Level 2 - At level 2, evaluation sheets become tough and are provided to the students preparing for the JEE (Main) & AIPMT entrance examinations.

Level 3 - At this level, the evaluation sheets are the toughest and patterned for the students who prepare for JEE (Advanced), AIIMS and AFMC examinations.

For all the students, solving the evaluation sheets for the first two levels is compulsory. Those students, who clear Level 2 and qualify for the third level, will solve the evaluation sheets for the Level 3.

4. Daily Practice Sheets (DPS)

It is an easy assessment system for the progress of students. The questions asked in DPS will be based on topics taught previously. With the help of DPS, students and the Faculties can easily judge the progress and can plan for further improvement accordingly.

5. Testing Pattern

Apart from DPS, regular tests for Board syllabus, JEE and Medical entrance examinations will be conducted fortnightly.

6. Test paper discussion

After every test, a brainstorming discussion session is conducted. Printed answer sheets are provided to all students during discussion sessions. This system helps the students to understand their mistakes. The answer sheets are helpful in studies as a reference material.

7. Doubt Classes

The DDS Academy believes on conceptual teaching. A student can't learn unless he/she understands the fundamental concepts of the subject. Learning is incomplete without doubts and queries and good learners always have many doubts. In doubt classes, students are encouraged to ask their doubts without any hesitations, and concerned faculties provide personal attention to the students to clear the doubts to the maximum depths.

8. Study Hour

On high demand from parents, the DDS Academy has designed this feature. The DDS Academy provides supporting facilities to the students, so that they can concentrate fully on studies without any distraction, during study hour. During this hour, students are not allowed to keep or to use the cell phone, go out of the study hall or leave his / her seat, unless its very necessary and are not permitted to talk with each other. The study hour is supposed to be utilized for self study, review of the topics taught earlier and for completing the home work.

9. Test Series

Test series is conducted for the students appearing for the Board examination as well as JEE (Main) and PMT examination at the end of the academic year.

10. Library

A well stacked library with numerous books by various authors are available for reference for the students for enhancing learning experience.

11. 24 x 7 online learning platform

DDS offers a most unique online / offline learning platform for the students to practice from thousands of tests, video lectures, sample exam papers and much more. So no matter if the student is away from the regular classes and does not have access to his course contents, one cab still practice and study with the aid of this unique online learning tool.

12 Computer aided watch programme for Parents

DDS Academy has a web presence, where, Parents can watch:

1. Daily Attendance of their wards.
2. Time-table for various tests.
3. Evaluations & Results of the tests.
4. Ranking of the ward among the students.
5. Information and notices related to the class.

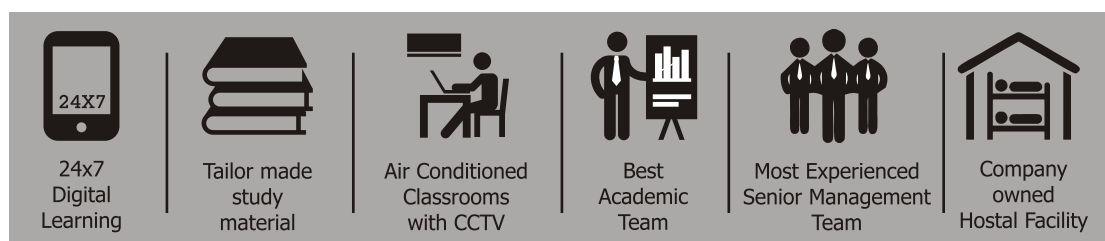

DDS ACADEMY

WHY DDS?

DDS Academy is formed with a vision of providing best educational solutions to Science aspirants. We practice a unique teaching methodology delivered meticulously by the Veterans of the academic arena. This helps students with tailor made assistance and guidance which moulds the students to think with an analytical bent of mind which helps them crack the competitive exams. DDS Academy successfully conducts courses for the 11th & 12th Standard students and prepares its students with researched, latest and most updated study material. But above all the following points also makes DDS best than the rest .

- Good track record of results in competitive exams.
- Experience faculties
- Integrated teaching
- Regular Parent teacher Meetings
- Doubt solving sessions.
- Comprehensive and exhaustive study material
- 24/7 Digital /online learning app
- Comprehensive testing system
- Tests and assessments
- State of the art modern infra
- Daily monitoring of attendance
- Monthly performance report

Astonishing results every year makes DDS academy a trusted brand.

DDS HISTORY

DDS Academy comes across as Central India's premier largest and the fastest growing edu- corporate.' With individual stalwarts from the academic fields, the directors, who have taught scores of students, now parents, came together to form DDS Academy. DDS Academy has an amalgamation of such senior academic stalwarts that takes the student through the boards, as well as masters from the competitive academic field to see the student through the various competitive examinations. This unique distinction that DDS Academy has promotes competitive spirit among students and encourages young talents to show their mettle in competitive exams & emerge as winners. This prepares them to face the National level entrance / competitive exams. DDS Academy endeavours to offer an excellent take off platform for the Engineering & Medical field aspirants. We have guided scores of students till date for the job landing prestigious JEE, NEET, MHT-CET and Board examinations post which our students enter reputed colleges and institutions across the country with an enviable success record.

DDS RESIDENTIAL PROGRAM

NEED FOR 'RESIDENTIAL PROGRAM'

The tailor made Residential Program offered by DDS is unique. Unlike other "Residential Programs" which are situated usually outside the city or in a remote place, the "Residential Program," of DDS Academy is right into the heart of city and the hostel facility is mere 3 kms. away from the Classroom/teaching facility.

This does not give the child a confinement feel. This set up keeps the child away from the usual distractions of today's world, so that aspiring students are in a healthy, safe and sound learning ambience.

Evidently 'Residential Program' would cut off distractions to a good level for the aspiring students, as they are kept in an ambience, which is good for studies, away from the hustle - bustle of usual city life. In a Conducive study atmosphere in absence of the usual distractions of daily routine, students will be able to concentrate fully on studies and other academic activities.

Significance of Residential Program:

360° development of your child

A residential program brings both students and teachers on one platform where they live first of all and obviously study together in a healthy, safe and sound campus ambience. Here your child will by virtue of being with others, and teachers, learn the art of living besides this, your child gets moulded into a learning mode. Moving out of one's comfort zone is never easy. It is not only academics that your child will undoubtedly pick up but also will inculcate mannerisms and will learn to be self dependent. This will certainly ensure 360° development of your child.

Residential Program contributes towards making your child self dependent and brings out their true potential

Life is a roller coaster, and problems in life will be there, the true solution to this is to learn how to deal with them. Be it academically, or general well being, your child will get a deep exposure to facing the challenges that life throws at us. In addition, your child gets an in depth academic knowledge.

And most important of all, this all happens under the supervision and watchful eyes of specially trained and academically fit teachers who mentor your child in all its true sense. Students are empowered to achieve their true potential and enjoy a measured dose of self dependence at the residential program.

Residential Program instils true life's virtues in your child

Time waits for no one! Opportunities don't come again and again! Give respect and take respect! Discipline goes a long way!.....and so on and so forth. Such sayings are commonly heard, but little focus is actually paid to inculcating them in one's life style. The first thing that this residential program focuses is on development of these virtues. Your child is taught the true sense of discipline. You will agree that Discipline and Punishment are not the same! Timeliness is next to Godliness' and with this thought in mind, the Residential Program ensures strict timetables and routines, where children are taught to respect time and value it. In addition to academics, extracurricular activities too need one to be punctual and attentive.

Both school and non-school contexts are critical to children's learning and achievement

The residential program is an amalgamation of both academics and extracurricular activities. The main focus is on preparing the students to cope up with academics to crack various competitive examinations. Teachers and students live and study together in a comfortable yet safe & secure campus like atmosphere. Residential Program has limited number of children in each hostel room and each class room. This enables teachers to fully concentrate on every student. The student who for some reason or the other lags behind is given the appropriate guidance so that he / she comes at par with the others. Being in a total congenial atmosphere with specially trained teachers, the students come forward with their doubts and difficulties, and therefore a thorough learning experience is achieved. The residential program is carefully tailor made to bring out the best in every child, hence it is unique.
